

How to use the versions of the ELBS Brand

Downloadfiles to use for

0

x and H (below) defines the size of the squares and therefore the needed distance to other objects and extra space around in addition to the brands.

The best background colour is „white“ to place the brand to gain the best result.

print

digital

1

Version 1 (V1) can be used to a minimum size of width with 20 mm in print or 250 px for digital use.
