

Agenda

CTC Technology Meeting, September 15th 2021

Work Package Leads: Evi Lianidou and Nikolas Stoecklein

14:00 – 14:30	Opening Presentations Moderation by Evi Lianidou and Nikolas Stoecklein
14:00 – 14:10	Opening presentation by Nikolas Stoecklein • Organization of the technologies group • Ideas for future structure of the group
14:10 – 14:20	Presentation by Evi Lianidou • Results of the survey
14:20 – 14:30	Discussion of the ideas for future meeting structure and the survey results
14:30 – 15:00	Development of CTC Standards Moderation by Evi Lianidou and Nikolas Stoecklein
14:30 – 14:40	Presentation by Krystyna Nahlik (<i>LGC SeraCare</i>) • Main requirements concerning cellular reference material • Challenges and progress in the CTC standard development program.
14:40 – 14:50	Presentation by Tim Pitfield (<i>Menarini Silicon Biosystems</i>) • Experiences in the use of internal CTC standards for the CellSearch® system.
14:50 – 15:10	Open discussion on cellular reference material
15:10 – 16:00	Suggested Topics and Discussion Rounds Moderation by Evi Lianidou and Nikolas Stoecklein
15:10 – 15:25	Suggested topic (Roberta Carbone - <i>Tethis</i>): Pre-analytical issues for CTC assays • The challenges of preserving sample integrity for optimal analysis
15:25 – 15:40	Suggested topic (Michiel Stevens - <i>UT</i>): DLA • Is specificity more important than capture efficiency if sample size is no longer limiting
15:40 – 16:00	Open discussion: Additional ideas, comments, and suggestions • Closing remarks

We wish you a lively and productive meeting!
