

Agenda

2nd ELBS ctDNA Technology Meeting of 2022

July 5th 2022, 4 – 6 PM CET

WP Leads: Ellen Heitzer, Ed Schuurin, Patrizio Giacomini, Michael Speicher

16:00 – 17:30	Presentations on the topic of ctDNA reference materials Moderation by Ed Schuurin
16:00 – 16:05	Welcome by the ctDNA steering committee
16:05 – 16:20	Dr. Leandro Lo Cascio , Principal Investigator, Genome Engineering; NIBSC - National Institute for Biological Standards and Control (UK) <i>An International reference material to help the harmonisation of ctDNA diagnostics</i>
16:20 – 16:35	David Chi , Senior Product Manager and Kunal Banjara Supervisor, Molecular Biology; Thermo Fisher Scientific <i>Development of an In-Kit cfTNA Control and Other Liquid Biopsy Reference Material Capabilities</i>
16:35 – 16:50	Dr. Mila Pavlova , Research Scientist; Horizon Discovery - a Perkin Elmer Company <i>High Quality Reference Materials for the Analysis of ctDNA and Liquid Biopsy</i>
16:50 – 17:05	Dr. Krystyna Nahlik , Senior Field Applications Scientist; LGC Clinical Diagnostics <i>Challenging the Limit of Detection in Liquid Biopsy Assays with Sereaseq ctDNA Reference Materials</i>
17:05 – 17:20	Dr. Björn Nowak , Managing Director; SensID <i>cfDNA reference materials and uses thereof</i>
17:20 – 17:30	Adam Corner , Market Development Manager; Bio-Rad <i>Droplet digital PCR: improving nucleic acid quantification across the board</i>
17:30 – 18:00	Discussion Moderation by Ellen Heitzer
