Some requirements need to be met when creating an account:

- The **e-mail address must be valid**. ConfTool does several tests to ensure that you enter a valid address to avoid typos. Your e-mail address will be used to contact you about the event, the submission process and the participant registration process.
- The **user name** has to consist of at least 2 characters, is case-sensitive and must be unique, i.e., no other ConfTool user must already be registered with the same name.
- The **password** has to consist of at least 5 characters, is case-sensitive and has to contain at least one Latin character (a-z) and one number (0-9).
- The password must **not be simplistic**, for instance it must not be equal to your name.

If you experience problems while creating a user account, please contact the conference organizers by e-mail (info-eshms2026@uke.de) and include all required data. The conference organizers will be able to assist you.

After completing the Web form, a confirmation e-mail will be sent to you with your account details. Please provide a valid name, address, and email address.

The user account can be used for multiple submissions and for participant registration.

Login to the ConfTool System

After having obtained a user account, you can log in with your username and password under "Registered Users". If you have forgotten your password, a new one can be obtained through the "Forgotten your password?" link.
